1. Attached are two brief NIO/CF contributions for the DCI's Annual Report. Attachment A describes work in NATO-Warsaw Pact force comparisons being undertaken under my auspices. Attachment B describes significant intelligence support this year for the MBFR talks and for the "grey areas" issue, specifically PRM-38.

2. Under Item II. Key Issues (References A and B), discussions with OSR confirmed that this past year there has been no breakthrough in collection that has significantly improved our knowledge or analysis of Soviet exercises. Therefore, there is no contribution on that item (Reference B: II.A.c.(2)).
